

Direct Hire

Engineer and Police Officer Employment

The Department of Defense has Direct Hire Authority for Engineering and Police Officer positions as listed below. Under direct hire procedures, each installation will accept resumes and make selections for vacancies as they occur.

HOW TO APPLY: Submit a cover letter stating the position you wish to be considered for and attach a resume, copy of your transcript, license, or registration to the installation listed below where you wish to be considered. If you are claiming veteran's preference, submit a copy of your DD-214 (member 4) and a current VA letter and [SF-15](#) for veteran's claiming 10-pt preference.

QUALIFICATION REQUIREMENTS: Candidates must meet the basic qualification requirements as shown below. Additional qualification and education requirements are listed in the Qualification Standards for [GS-0800 series](#) for All Engineering Positions and [GS-0083 series](#) for Police Officer positions. General announcements for GS-0801 General Engineer; GS-0810, Civil Engineer; GS-0830, Mechanical Engineer; GS-0850 Electrical Engineer; GS-854 Computer Engineer and GS-0855 Electronics Engineer are also posted on the [Office of Personnel Management \(OPM\) USAJOBS website](#).

GS-0801, General Engineering (GS-05 through GS-13)

EDUCATION: **A.** Degree: professional engineering OR **B.** Combination of education and experience-- college-level education, training, and/or technical experience to include **(1)** Professional registration; **(2)** Evidence of having successfully passed the Engineer-in-Training (EIT) examination, or the written test required for professional registration, which is administered by the Boards of Engineering Examiners in the various States, the District of Columbia, Guam, and Puerto Rico; **(3)** Successful completion of at least 60 semester hours of courses in the physical, mathematical, and engineering sciences and in engineering that included the courses specified in the basic requirements; OR **(4)** Successful completion of a curriculum leading to a bachelor's degree in engineering technology or in an appropriate professional field, e.g., physics, chemistry, architecture, computer science, mathematics, hydrology, or geology, may be accepted in lieu of a degree in engineering, provided the applicant has had at least 1 year of professional engineering experience acquired under professional engineering.

LICENSE: None

EXPERIENCE: For most positions, 1 year of related work experience

GS-0810, Civil Engineering (GS-05 through GS-13)

EDUCATION: **A.** Degree: professional engineering OR **B.** Combination of education and experience-- college-level education, training, and/or technical experience to include **(1)** Professional registration; **(2)** Evidence of having successfully passed the Engineer-in-Training (EIT) examination, or the written test required for professional registration, which is administered by the Boards of Engineering Examiners in the various States, the District of Columbia, Guam, and Puerto Rico; **(3)** Successful completion of at least 60 semester hours of courses in the physical, mathematical, and engineering sciences and in engineering that included the courses specified in the basic requirements; OR **(4)** Successful completion of a curriculum leading to a bachelor's degree in engineering technology or in an appropriate professional field, e.g., physics, chemistry, architecture, computer science, mathematics, hydrology, or geology, may be accepted in lieu of a degree in engineering, provided the applicant has had at least 1 year of professional engineering experience acquired under professional engineering.

LICENSE: None

EXPERIENCE: For most positions, 1 year of related work experience

GS-0819, Environmental Engineering (GS-05 through GS-13)

EDUCATION: **A.** Degree: professional engineering OR **B.** Combination of education and experience--college-level education, training, and/or technical experience to include **(1)** Professional registration; **(2)** Evidence of having successfully passed the Engineer-in-Training (EIT) examination, or the written test required for professional registration, which is administered by the Boards of Engineering Examiners in the various States, the District of Columbia, Guam, and Puerto Rico; **(3)** Successful completion of at least 60 semester hours of courses in the physical, mathematical, and engineering sciences and in engineering that included the courses specified in the basic requirements; OR **(4)** Successful completion of a curriculum leading to a bachelor's degree in engineering technology or in an appropriate professional field, e.g., physics, chemistry, architecture, computer science, mathematics, hydrology, or geology, may be accepted in lieu of a degree in engineering, provided the applicant has had at least 1 year of professional engineering experience acquired under professional engineering.

LICENSE: None

EXPERIENCE: For most positions, 1 year of related work experience

GS-0830, Mechanical Engineering (GS-05 through GS-13)

EDUCATION: **A.** Degree: professional engineering OR **B.** Combination of education and experience--college-level education, training, and/or technical experience to include **(1)** Professional registration; **(2)** Evidence of having successfully passed the Engineer-in-Training (EIT) examination, or the written test required for professional registration, which is administered by the Boards of Engineering Examiners in the various States, the District of Columbia, Guam, and Puerto Rico; **(3)** Successful completion of at least 60 semester hours of courses in the physical, mathematical, and engineering sciences and in engineering that included the courses specified in the basic requirements; OR **(4)** Successful completion of a curriculum leading to a bachelor's degree in engineering technology or in an appropriate professional field, e.g., physics, chemistry, architecture, computer science, mathematics, hydrology, or geology, may be accepted in lieu of a degree in engineering, provided the applicant has had at least 1 year of professional engineering experience acquired under professional engineering.

LICENSE: None

EXPERIENCE: For most positions, 1 year of related work experience

GS-0850, Electrical Engineering (GS-05 through GS-13)

EDUCATION: **A.** Degree: professional engineering OR **B.** Combination of education and experience--college-level education, training, and/or technical experience to include **(1)** Professional registration; **(2)** Evidence of having successfully passed the Engineer-in-Training (EIT) examination, or the written test required for professional registration, which is administered by the Boards of Engineering Examiners in the various States, the District of Columbia, Guam, and Puerto Rico; **(3)** Successful completion of at least 60 semester hours of courses in the physical, mathematical, and engineering sciences and in engineering that included the courses specified in the basic requirements; OR **(4)** Successful completion of a curriculum leading to a bachelor's degree in engineering technology or in an appropriate professional field, e.g., physics, chemistry, architecture, computer science, mathematics, hydrology, or geology, may be accepted in lieu of a degree in engineering, provided the applicant has had at least 1 year of professional engineering experience acquired under professional engineering.

LICENSE: None

EXPERIENCE: For most positions, 1 year of related work experience

GS-0854, Computer Engineering (GS-05 through GS-13)

EDUCATION: **A.** Degree: professional engineering OR **B.** Combination of education and experience--college-level education, training, and/or technical experience to include **(1)** Professional registration; **(2)** Evidence of having successfully passed the Engineer-in-Training (EIT) examination, or the written test required for professional registration, which is administered by the Boards of Engineering Examiners in the various States, the District of Columbia, Guam, and Puerto Rico; **(3)** Successful completion of at least 60 semester hours of courses in the physical, mathematical, and engineering sciences and in engineering that included the courses specified in the basic requirements; OR **(4)** Successful completion of a curriculum leading to a bachelor's degree in engineering technology or in an appropriate professional field, e.g., physics, chemistry, architecture, computer science, mathematics, hydrology, or geology, may be accepted in lieu of a degree in engineering, provided the applicant has had at least 1 year of professional engineering experience acquired under professional engineering.

LICENSE: None

EXPERIENCE: For most positions, 1 year of related work experience

**GS-0855, Electronics Engineering
(GS-05 through GS-13)**

EDUCATION: **A.** Degree: professional engineering OR **B.** Combination of education and experience-- college-level education, training, and/or technical experience to include **(1)** Professional registration; **(2)** Evidence of having successfully passed the Engineer-in-Training (EIT) examination, or the written test required for professional registration, which is administered by the Boards of Engineering Examiners in the various States, the District of Columbia, Guam, and Puerto Rico; **(3)** Successful completion of at least 60 semester hours of courses in the physical, mathematical, and engineering sciences and in engineering that included the courses specified in the basic requirements; OR **(4)** Successful completion of a curriculum leading to a bachelor's degree in engineering technology or in an appropriate professional field, e.g., physics, chemistry, architecture, computer science, mathematics, hydrology, or geology, may be accepted in lieu of a degree in engineering, provided the applicant has had at least 1 year of professional engineering experience acquired under professional engineering.

LICENSE: None

EXPERIENCE: For most positions, 1 year of related work experience

**GS-0083, Police Officer
(GS-05 through GS-13)**

EDUCATION: 4 years above high school up to GS-5 level.

LICENSE: None

EXPERIENCE: For most positions, 1 year of related work experience

MEDICAL REQUIREMENTS

The duties of these positions require moderate to arduous physical exertion and/or duties of a hazardous nature. The following medical requirements apply to all applicants: good near and distant vision, ability to distinguish basic colors, and ability to hear the conversational voice. Agencies may establish additional, job-related physical or medical requirements provided that the specific position(s) involves the arduous or hazardous duties to which the physical requirements relate. Applicants and employees must have the capacity to perform the essential functions of the position without risk to themselves or others. Applicants and employees must possess emotional and mental stability. In most instances, a specific medical condition or impairment will not automatically disqualify an applicant or employee. A medical condition or impairment is disqualifying only if the condition, for good medical reason, precludes assignment to or warrants restriction from the duties of the specific position. For some positions, the loss or impairment of a specific function may be compensated for by the satisfactory use of a prosthesis or mechanical aid. Reasonable accommodation shall also be considered in determining an applicant's ability to perform the duties of a position. Reasonable accommodation may include, but is not limited to the use of assistive devices, job modification or restructuring, provision of readers and interpreters, or adjusted work schedules. All positions involving Federal motor vehicle operation carry the additional medical requirements specified in [5 CFR 930](#) and the "General Policies and Instructions" section of this Manual.
